

**Technology Exchange &
Coordination (Pvt) Ltd.**

TEC

**ENGINEERING
CONSULTANT**

Established since 1992

**Company
Profile**

TEC 
Engineering Consultant

About TEC

TEC was established in 1992 by Engr. Siddiq-ur-Rehman Rana (China) Flt.Lt. (Retd) to facilitate the investors in Setting up new Industry and Businesses with China.

Have set up Rs. Multi-Billion investment Soda ash, Ethanol, and H₂O₂, a total of 23 projects & is considered the highest performance industrial consultancy in the country. Have introduced four pillar approaches: Main frame from China, High tech from G20, local fabrication, and Professionals role from feasibility to production

TEC - Engineering Consultants specialize in Setting up green field projects, industrial zones, or SEZs from - Feasibility study till commercial production

TEC also Specializes in Business with China - Trading; Directly from manufacturers in China, hybrid equipment by blending components from G20, Transfer & adaptation of technology and upgrading existing industry, SMEs & setting up new.

OUR MISSION

Achieving Economic and Technological Sovereignty by making Pakistan Bio and Digitalization Hub

OUR FOCUS

"WE WORK FROM PROJECT IDENTIFICATION TILL BOILER FIRING."

- Maize, Sugarcane based 45 Bio-projects Eco-Industrial Park, attracting investment from China, EU, & G20 countries.
- Setting up "Industry Resource Centre" BKIT for ease of doing business.
- Setting up "Knowledge Value Chain at 4 pillars" (Digitalization, Sectoral Applied, Basic Research, Implementation) for Bio, Chem, Food processing sectors.

SERVICES

- **Project Identification** – Local raw materials used keeping in mind the world demand for 30 to 50 years.
- **Feasibility Study** based on data from R&D Institutes, Machinery, Manufacturers, and EPC Contractors.
- **Providing Supervision/Coordination** during Implementation. Training, Market Research, and Studies. Exploring JV partners in China.
- **Preparing the Equipment and Know-How Package** for setting up a new industry. We manage the latest technology most economically by:
 1. **Production line analysis** at the nut, bolt level for deciding possible local fabrication or importing from China, and G20 countries.
 2. **Forming and managing the consortium** of R&D institute, equipment, manufacturer, construction company in China for the project instead of going through trade houses.

MAJOR ACHIEVEMENTS

A. Green field Industry

Have set up Rs. Multi Billion investment projects Soda Ash, The biggest Ethanol project (400,000 ltr./day), H₂O₂, power plant based on local low quality coal, etc. 23 projects.

C. Govt. Policy input

Accompanied Finance Minister for JMC meeting at Beijing in 2000
Prime Minister of Pakistan in November 2004 as Official delegate to China for investment conference
Consultant with Ministry of Commerce & Industry for FTA and economic strategy with China.

B. Industry Upgradation

Introducing world best practices, fresh fruit processing project with ADB funding.

D. Industry Resource Centre

“Industry Resource Center” BKIT (Banks, Knowledge Shop, ICT/IT, Training) under one roof for ease of doing business at Sundar Industrial Estate, Plot # 6 & 7

E. 5 Knowledge Products & IPO Registered Practical Tools

MAJOR ACHIEVEMENTS

- BKIT - Banks, knowledge shop ICT and training four pillar under one roof.
- Knowledge Shop for SME linkage with academia, R&D institutes, and BDSP
- Knowledge Value Chain
- Way forward for solving energy problems for SME
- SPM - imparting income generation Skills, facilitating in production & marketing, complete package for entrepreneurship

F. Setting up Eco Industrial Park

Controlling the **CAPEX** by forming the consortium of 3 for project execution; R&D Org, equipment manufacturers, construction companies, for ensuring quality, economy, and speed.

Achieving economy in **OPEX** by setting up integrated industrial complex by horizontal (Inputs related industry) & vertical (down-stream industry) Integration

Engr Siddiq-ur-Rehman Rana (China) Flt.It (Retd.)

JOB EXPERIENCE

1978 - 1980 - Worked in the design department of Heavy mechanical Complex Taxila

1981 - 1983 - Worked with Pakistan Mineral Development Corporation as incharge of operation, maintenance and utilities at Salt and Coal mines. Successfully managed the efficiency enhancement of the old equipment

1983 - 1990 Worked with Pakistan Air Force engineering branch A. Pakistan Aeronautical Complex; Kamra - (1983 - 1986)

Significant Achievements at own initiative:

- i. Upgrading the performance and accuracy of production facilities by arranging overhauling of the equipment.
- ii. Organizing on-the-job training system

B. PAF Base Faisal (102 MU) The biggest engineering set up - (1986- 1990)

EDUCATION:

Graduation in Engineering: China - 1978 (North East Engineering University)

Chinese language Course: Beijing - China

MEMBERSHIPS:

Chamber of Commerce and Industry: Executive committee corporate class member for the year 2008-2009, Founding Convener: Pak - China, ASEAN Economic relations standing committee (Since 1999)
